Dear Sir/Ms.:

The following questions have been received:

**Question:** Can more information be provided for the test pit item? (Locations, depths, reason for test pit etc.)

**Response:** The test pits are located at the mast arm foundation locations to verify the existence or nonexistence of utility conflicts.

**Question:** Why is traffic control incidental to this item?

**Response:** The MaineDOT chose to make everything associated to this item incidental to the item. This includes traffic control.

Consider these changes and information prior to submitting your bid on **March 18, 2020**.
